

# Annual Report

## INBOUND

resolution rate | service level agreement |

Average call resolution rate (calls that are resolved inside of the contact center and do not require a transfer to another department for service) per month for the past 12 months.

## QUALITY CONTROL & STUDENT SATISFACTION

handling time | hold duration | time to agent

**1:38**

*is the average length of a call into the Contact Center, with a 99.901% answer rate, totaling 48,416 calls last year.*

**30s**

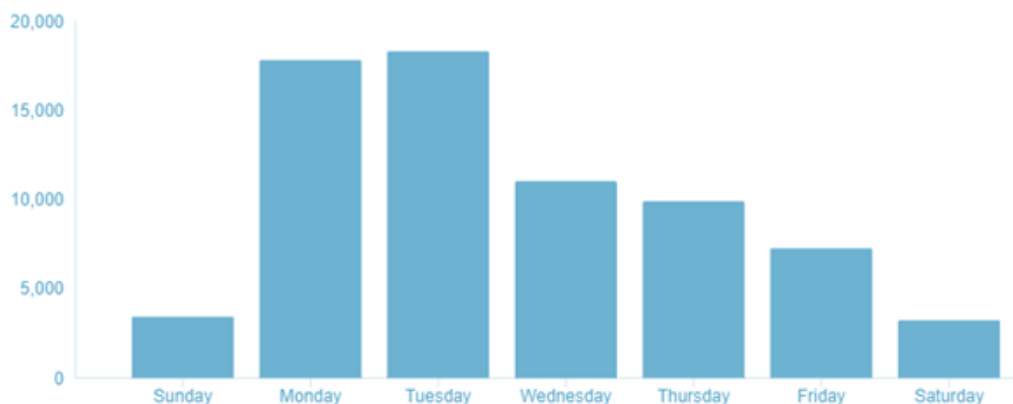

The average time it takes to be connected to an agent after dialing, including navigating the IVR menus.

**45s**

The average amount of time someone will spend on hold with a Contact Center agent while addressing a concern.

## CHATBOT

inbound connections | knowledge maintenance | ease of access

In partnership with Institutional Marketing, the Contact Center operates and maintains the information within the chat bot. This method of contact paired with nudge campaigns generated by institutional Marketing allow us to connect with students at a more rapid pace.

## CAMPAIGN CONNECTIONS

student objectives | actionable data | pattern recognition & insights

## CAMPAIGN PERFORMANCE

The Contact Center performs several strategic outreach campaigns each semester. These campaigns are aimed at increasing engagement and improving completion outcomes. Through proactive outreach, we connect with students, reminding them of key academic deadlines while encouraging momentum towards completion of their program. These campaigns are vital in connecting with students that typically fall outside the scope of other support networks here at Salt Lake Community College.
